PENNSY'S FOOTBALL OUTLOOK. Prospects Are Bright for a Game With Princeton's Tigers Next Fall.

A number of candidates for the Univer-sity of Pennsylvania football team have been ordered to start work in the college gymnasium. McDevitt, '28, was the only man to respond to the first call. McDevitt is a big, husky fellow, weighing over 20) pounds, and Woodruff hoppes to make a guard out of him by next fall. McDevitt and Woodruff ran about four miles on the gymnasium track and exercised on the weight machines. Both were puffing in great shape when the coach cailed a halt. Present indications in the college athletic world point strongly to the resumption of athletic relations between Pennsylvania and Princeton. For a year or more there has been an understanding among the graduates and undergraduates to the effect that it will only be a short time before the football men of the universities will be struggling on the gridiron in a match game. The latest news to confirm the indications that harmony will be restored in the athletic relations of the red and blue and orange and black was the announcement of the result of the Harvard-Pennsylvania conference held recently in Cambridge. According to the agreement, Pennsylvania is to meet Harvard oa the gridiron for five years. Running in unison with the Harvard-Pennsylvania agreement is another between Yale and Harvard. With games arrunged with Yale and the Guakers, the Pennsylvanians argue that Harvard will hardly want to take, another hard game, which will be necessary if she were to agree to play the Tigers. Harvard has repeatedly said that she considers two big games sufficient for one season, and that three games are too many for the team. In view of this sentiment on the question, it is hardly likely that Captain Cabot, to whom it has been referred for decision, will accept Princeton's challenge for a football game next fall. This leaves the Tigers with but one big game for the season—that with Yale. They will thus be forced into the same predicament that Yale found herself in last fall, when she had only one important game scheduled. gymnasium. McDevitt, '98, was the only man to respond to the first call. McDevitt

"The excellence of the roads in England," says a road performer, "is due to their constant supervision. Every county has its standing committee of roads, which takes charge of the highways and keeps them in repair. The committee is divided into subcommittees, to each of which is assigned a district. There is an inspector for each division, who employs a force of road menders and holds each responsible for the portion of a road assigned to him. The mender goes over the road every day and mends any break by dumping a load of flint wherever needed.

mends any break by dumping a load of flint wherever needed.

A story is told about a number of racing men who were gathered about one of the tables on the lawn at Fountain Ferry park, discussing the chances of success on Australian tracks, "Will Knapp tells me that most of the Australian tracks are surfaced with grass," remarked Otto Ziegler, "and they must be hard to ride on for men who are used to cement and dirt surfaces." "That would be all right," chimed Harry Clark, "for if we got over there we'd burn up their old grass tracks for them." "Yis," added Pat O'Connor, with proverbial Irish wit, "whin we got through wid 'em, faith an' they'd be the foinest of cinder paths, they wud."

Record breaking camps will not be the fashlon this year, and on this point a follower of the game says: "Some of the crack riders of the country have arrived at the conclusion that record breaking is not, in the long run, very profitable. As a result, some of the more prominent specumen have decided to stick closely to the racing game, and will be seen in all the circuit events during 187. Little Michael, Johnson, Bald, Cooper, Kiser, Kimble, Gardiner and others will help form the circuit crowd this season, and this talent should make things decidedly interesting. Some new riders will be found who will win a share of the glory and money."

"A. E. Trachsel, of the City of Mexico," says Ed Spooner, "was a recent visitor in New York, and while here talked entertainingly of the racing situation in Mexico. The Mexicans are anxious for some of the prominent American racing men to pay them a visit, and Mr. Trachsel thinks that a side trip from the Southern portion of the National circuit, after the manner of the Canadian trip of the 185 circuit, would be a paying investment for the circuit chasers. There is a first-class cement track in the City of Mexico, and good racing there would be supported. Racing in Mexico is conducted without the semblance of official control, but the National Cyclists' Union controls the track and practically manages the sport in that country. The only table of records is kept by this club, and the Mexican marks are so easy that any good man going in there would have them at his mercy. The mile record is 2:19 2-5, and the competitive mile stands somewhere near 2:12. Monte Scott is there now, riding every Sunday at the regular meets and winning with ease. His prizes amount to about \$50 a week, and in addition he earns a salary."

WESTERNERS WILL BE THERE. Party of Noted Trap Shooters Will Compete in the Great American Handicap.

Western trap shooters will take a promnent part in the grand American handicap live bird competition at Elkwood Park, N. J., next Wednesday, Arrangements, delayed for some time, have finally been

holder of the "castiron" medal, emblematic of the live bird championship of America; Fre6, Gilbert, the "phantom of Spirit Lake," Ia.; Charles W. Budd, another of the lowa "Indians": Dr. J. L. Williamson, Milwaukee; "Dick" Merrill, Milwaukee, and Ed Voris, Indianapolis.

Such an aggregation is surely representative, and can be relied upon to do good work when the test comes. The generat impression is that a number of individual matches and possibly a team race against the Easterners will be the outgrowth of the trip. Charles Grimm, who defeated Dr. Carver for the "castiron" medal sometime ago, has received no challenges since then, although he has stated his willingness to meet all comers. A challenge directed against him is, therefore, expected. The conditions of the pandleap are: Twenty-five birds, \$25 entrance, hirds extra, handicaps twenty-five to thirty-three yards rise, \$1,000 guaranteed by the Interstate Association and all surplus added; three moneys, \$500 to first high gun, \$300 to second and \$300 to third.

Last year the purse reached a total of \$2.170, having 169 entries and rourteen moneys. The number of moneys is governed by the entry list. O. R. Dickey, of Boston, won in the sixth round of the shootoff, E. S. Rice says the men are all in good condition and expect to win the hardicap.

HAS QUIT FOR GOOD.

FITZ SAYS SO AND TALKS LIKE HE

HAS MADE ENOUGH TO LIVE ON.

HEREAFTER WILL DEVOTE HIM-SELF TO WIFE AND FAMILY.

Billy Brady Thinks Public Opinion Will Force Fitz to Fight Again, After a Year or So-Mysterious Billy Smith in Trouble.

San Francisco, March 20.-Bob Fitz-immons, "the retired champion of all cham-pions," arrived here late this evening. The quarters engaged for him at the Baldwin hotel had been decorated with floral horseshoes, boxing gloves formed of white vioets and other appropriate devices.

"I do not think," said Fitzsimmons, "that Corbett or anyone else is smart conugh to get me to accept another challenge. I propose to quit while my star is in its ascendency. I have made enough money to live on comfortably, and I propose to spend it for my wife and baby and take my ease, for I have licked the man claiming to be champion of the world and have downed over 300 men."

Billy Brady is still on the warpath, and eems determined to find some way of making Fitzsimmons give his late opponent one more chance before he puts into effect his announcement of retirement from the Brady, who came down from the snows

of Nevada yesterday, accompanied by "Kid" Egan, Corbett's collie Ned, and most of the ex-champion's wardrobe, told a crowd of his friends on the train something about the situation.

"It's ail very well for Fitzsimmons to say that he will never fight again," he declated. "You will remember that Corbett made such a statement a dozen times and yet he was dragged into a battle by Fitzsimmons. Well, now that our man is the under dog, we propose to reverse matters and make the foreigner give Jim another light, whether he wants to or not. Of course, Fitz will be able to stave this thing off for a year if he wants to, but after that the public will get too hot for him and he will either have to light or get out of the country. If Jim takes my advice he will immediately begin to get public sympathy to his side by accepting offers from Maher, Goddard, Sharkey or any other old dub who is after a fight. He can lick three or four fellows of that caliber in a month and then he will be in a position to demand satisfaction from Fitz Accept most of the ex-champion's wardrobe, told lick three or four fellows of that caliber in a month and then he will be in a position to demand satisfaction from Fitz. A condition exists in the puglistic world at present that was never known to exist before. You fellows may understand the newspaper business, but you don't understand the proble's admiration for a prominent fighter I do. I have made that kind of work my business about five years."

Brady is talking of taking Corbett to Australia and showing the Antipodeans how well Jim can act. He thinks the trip will do the puglist good and help take his mind off his recent defeat.

NOT A QUESTION OF WEIGHT. Many of the Ring Champions Have Benten Men Who Far Out-

weighed Them.

"An interesting and sometimes aggravating cuestion in boxing matches," says one old hand at the game, "is the question of weight. Weight does not always tell, and ct there are men who would have us believe that it is muscle and not brains that wins boxing matches. When feather, light or middleweights are to fight according to their respective class a difference in weight may be an advantage, but when two men are to engage in a contest at catchweights for the heavyweight championship, and they are equal in height, length of reach and science, extra weight counts but little.

Many will not agree on this theory, but prize ring records and personal experience prove it. According to the records of championship battles fought in England and in Analy will not agree on this theory, but should be superished and a perty of fourteen experience of the completed, and a perty of fourteen experit left Chicago yesterday for the East. If the event, which has never been won by a Western man, is not captured this year it will not be because the best experience of the sport in the West have not gone in quest of it.

The grand American handleap is the live bird event of the year among Eastern shots and difficult of the hour of the surplus to the winner, in addition to the honor attached. Victory would, therefore, mean much to the invaders. The party as guests will be "chaperoned" by E. S. Rice, Western agent of several large powder companies, and will include Thomas Marshall, mayor of Keithsburg, Ill.; Chauneey Powers, Decatur, Ill., holder of the Smith cup for inanimate targets, Dr. W. F. Carver, known as "the evil spirit of the plains"; "Eddle" Bingham, Chicago, Charles M. BILLY SMITH IN TROUBLE. Defeated Pugilist Fought With

Carson Officer and Is Now

in Jail. Carson, Nev., March 20 .- Mysterious Billy Smith, who threw up the sponge with George Green on Wednesday, is now reposing in the county jail in Carson. He got on the train last evening to go to San Francisco, and, walking up behind a detective cisco, and, walking up behind a detective he has had trouble with, commenced to strike him in the neck. Pistols were drawn, but before anything was accomplished, of-ficers had "Mysterious" Bill in tow, and were leading him down to the cooler. He was arrested on a charge of disorderly conduct Thursday, and spent the night in jail, but now will probably spend a short time in the penitentiary.

closed that the ring in which Corbett and Fitzsimmons met last Wednesday was but twenty-two feet square, instead of twentyfour, as the rule required. Shortly before the contest the ring was enlarged by shelves constructed on its ride in accordance with orders given by the referee, but on the night before the contest Chief Car-penter Franklin, acting under instructions from Stuart and Wheelock, sawed off two feet around the entire ring. The posts were taken up and placed inward. It is claimed this was done to accommodate the kineto-scope people.
